

Permission for Photographs

Dear Parents / Carers,

As you know, we are very proud of the work of our pupils and we like to advertise their successes and achievements.

In the past we have promoted the children's successes in sports, drama, environmental work and so on, by submitting photographs of the children to local newspapers such as Village Housing and the Liverpool Echo. The children may also be photographed when representing the school at different events and these photos may be used to celebrate their involvement.

As we are required to have your permission before allowing any such photographs of your child to be used in any publication, could you please complete the form GREEN part of the 'Rainbow Form' giving us permission for your child to be photographed and for their photographs to be used on these occasions.

Please note that by giving your permission we may also use your child's photo on our school's website.

Yours sincerely,

Mrs R Tyler
(Headteacher)
