

ADDvanced Solutions Community Network

Neurodevelopmental conditions family learning programme

Star Children's Centre

ADDvanced Solutions Community Network provides community based pre, during and post diagnosis learning, coaching, mentoring programmes and health, wellbeing and enrichment activities for families with a child living with neurodevelopmental conditions. Funded by Liverpool CCG, we offer free places to those families living with a range of conditions to help them to identify and better manage the difficulties that may present.

We will be delivering a 3-day Neurodevelopmental Conditions Family Learning Programme at Star Children's Centre, St Andrew's Church Hall, St Andrews View, Towerhill, Kirkby, Liverpool L33 1ZF. On Tuesday 5th and 12th and 19th from 9.30am – 2.50pm

You will learn about

- Identifying neurodevelopmental conditions/ learning and mental health difficulties
- Identifying Autism Spectrum Disorders /Conditions (ASD/C)
- Identifying Attention Deficit Hyperactivity Disorder (ADHD)
- Identifying Sensory Processing Difficulties
- Identifying challenging behaviours including sleep, toileting, feeding, and behavioural difficulties
- Identifying your local offer, welfare rights and educational support.

You must book onto this course. Please email or phone the ADDvanced Solutions office, places are limited and fill up quickly.
